

COVID-19 Testing

Johns Hopkins Bayview Medical Center – Baltimore, MD

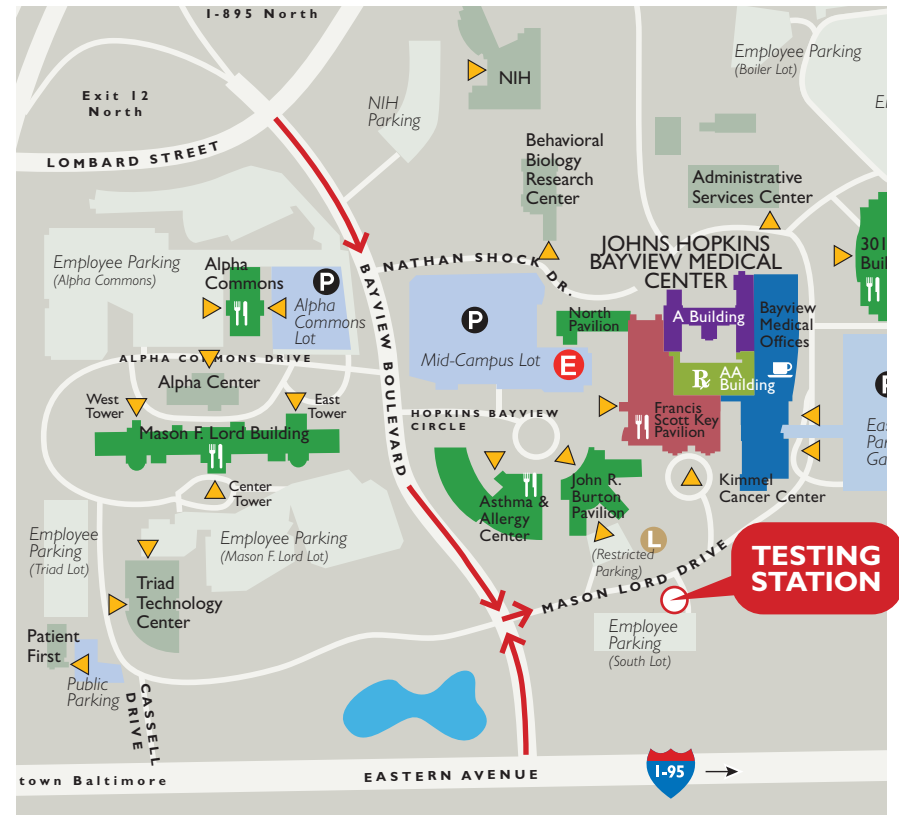

Your doctor would like you to undergo testing for COVID-19 and has placed an order. Within 24 hours, you will receive a call from a coordinator, who will schedule an appointment for you. We would like you to come to a Johns Hopkins facility community-collection site (NOT the Emergency Department) for this nonemergency testing. Testing requires an appointment: Please do not come to the hospital or testing facility without the appointment. For the safety of others, if possible, please come alone. If others come with you, they should remain in the car while you are at the hospital. Do NOT use public transportation or rideshare. Please bring a government-issued photo ID.
